

# CLEAN-IN-PLACE AGITATOR

CIPA-H

## DCI's clean-in-place agitator for storage tanks and vessels.

### **TIME AND LABOR SAVINGS**

No need for manual cleaning of seal shaft and seating surfaces. Eliminates need for daily take-apart after each tank or vessel cleaning.

### **LESS DAMAGE TO TANK**

Reduces chance of scratching interior surfaces and abrasive scoring of agitator's seating surfaces.

### **LOWER MAINTENANCE COSTS**

Including more efficient use of equipment and longer sanitary seal life.

### **IMPROVED QUALITY CONTROL**

Cleaned and sanitized seal surfaces result in improved product and longer shelf life.

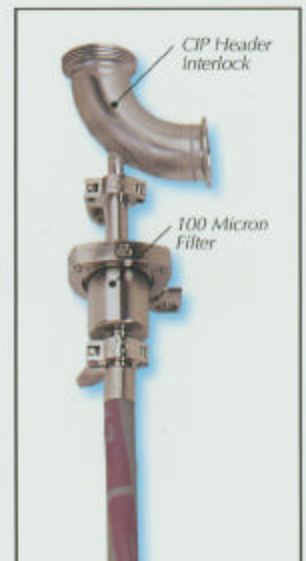

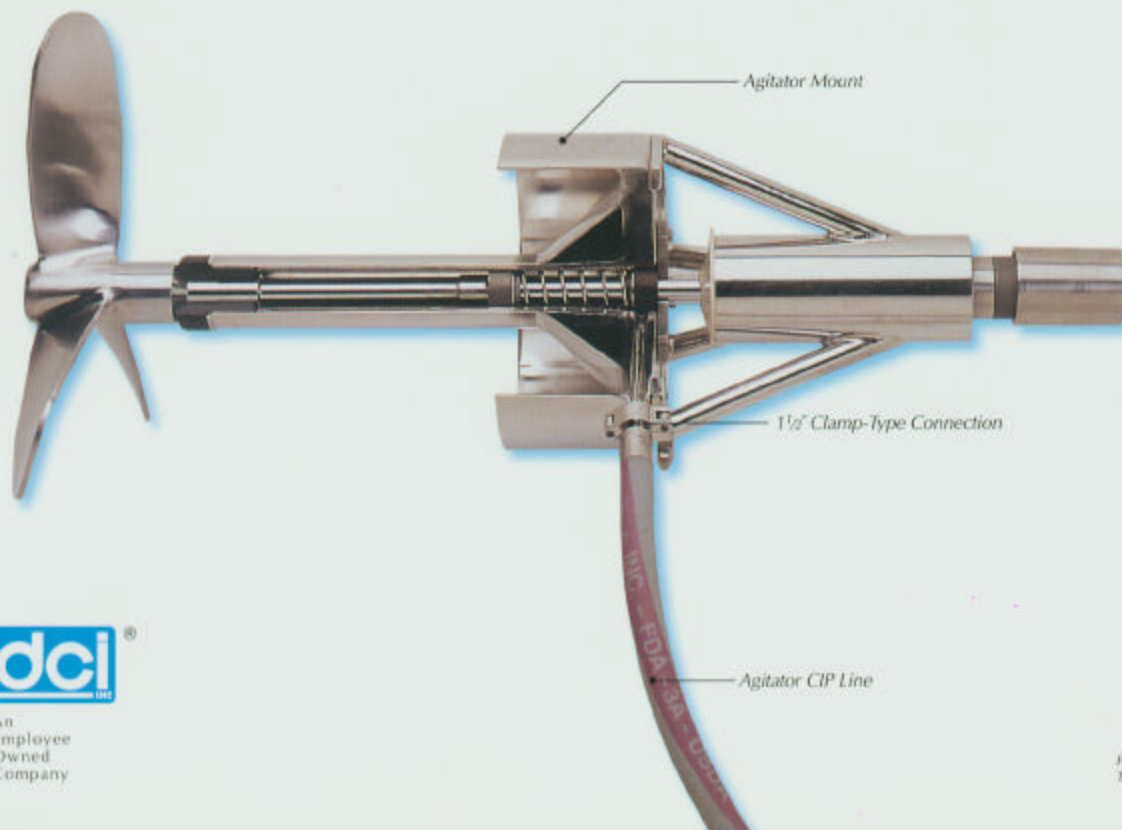

### **EFFECTIVE CLEANING**

Cleaning solution is filtered and directed through seal and across agitator blades.

### **REDUCED TANK ENTRY**

Tank access per OSHA requirements is limited to periodic agitator maintenance.

*Meets proposed 3A sanitary standards for silo mounted CIP cleanable agitators.*
