

Chemical

At DCI, we design specialized equipment for the chemical industry, paying careful attention to the details that have earned us a reputation as leaders in our field. Our highly trained engineers design and top-quality fabricators take all the steps to ensure your tanks are perfect.

Products

- Mixing and Storage Tanks and Vessels
- Chemical Fermentation Tanks & Vessels
- Custom Field Fabrication Storage (up to one million gallons)
- Skidded Systems
- Crystallizers
- Agitation (Pharmix)

Not only does DCI Inc. manufacture the above equipment for the chemical industry *but we build custom engineered equipment* that fits your company needs. Send DCI, Inc. your existing prints and specifications to get started. If you don't have existing prints please reach out with the information you do have and allow DCI Inc. to help engineer your new equipment.

Capabilities & Customization

DCI, Inc. will customize any piece of equipment to your exact specifications. Get the most out of your equipment with our value added solutions and services:

- Material/Weld Finishes
- PharmAssist Lift Assist Solutions
- Heat-transfer Surfaces
- Passivation
- Riboflavin Testing
- PharMix Agitators with customized CIP/SIP capable seals
- Control/Automation Packages
- Integrated Systems
- Positive Material Identification
- Electropolishing
- Variety of Heat transfer Applications (channel, dimple, half-pipe, etc.)
- Catwalks, Ladders, and Platforms

Additional Services

- DCI-Biolafitte: Innovative Biotechnology Support
- Field Fabrication At Your Site
- Field Service - Repairs and Modification
